

SNOW 2021

Trust
/trəst/ (noun)

- Firm belief in the reliability, ability, or strength of something.

It's impossible to talk about 2021 without looking back on 2020. And it's impossible to look back on 2020 without commentary about a global pandemic that first sunk its teeth in the United States back in early spring. Our hearts sincerely go out to those affected by Covid-19.

In an effort not to make this sound like a news story, I won't delve too far into the details of a situation we're all very aware of. However, I think we can agree that all of us in the KLIM family have been faced by very real unknowns. The uncertainty we all felt through March and April was unprecedented for many reasons, and the powersports industry felt pretty far from "essential" as the situation unfolded and people lost jobs and businesses.

I think we can all step back and recognize that this year wasn't smooth. We've all had loads of complications, whether it's supply chain issues with raw materials and factories, or workforce challenges due to illness, or logistical problems imposed by new regulations. Everyone has been affected somehow.

All other concerns aside, from a product development standpoint, we needed our supply chains to continue functioning so we could stay on track building new gear. In terms of inventory, we worried how the situation would impact future product stock levels. But even if we had gear to stock dealers, how would lockdowns and restrictions affect store traffic? And on top of that, with the economy in turmoil and millions unemployed, would people even be able to buy our gear? These are not comfortable questions to dwell on.

After precariously hanging in uncertainty, a trend began emerging for the powersports industry. The whole industry started seeing incredible growth despite the challenges presented by Covid-19. New realities imposed by the virus situation led to more people recreating outside as people seemed to "rediscover" local playgrounds and powered outdoor activities. Unable to go on big vacations, or go to concerts, or otherwise participate in the "normal" summer activities, powersports have proven themselves as an escape for people to enjoy themselves amidst challenging times.

Against the odds, our beloved pastimes have resonated not only with new enthusiasts, but with longtime riders who have been getting even deeper into powersports. The budding overall health of the powersports industry has been astounding, and demand for our products is very promising. We should all feel extremely blessed. We've continued to maintain a profitable business with exceptional demand for our products, and that is a direct result of everyone's hard work.

As we move forward into 2021, I am increasingly thankful for the effort and cooperation that goes into keeping the KLIM brand strong. Our talented staff, our athletes, and you, our dedicated dealers, are the people who have taken initiative to succeed in this new environment. Adapting and changing with unprecedented situations isn't always easy, but our teams have stepped up to the plate and delivered. From new sales strategies, to working from home, to new projects and responsibilities, the flexibility, adaptability and determination of our KLIM family is what will continue to ensure our success.

All of us at KLIM appreciate the partnership and loyalty that has gone into everything we have accomplished together over the last two decades, especially the last 12 months, and look forward to serving our dealers as we enter 2021.

As we help people live their passion to the fullest, we thank you for your commitment to KLIM.

F5 KORROYD ECE/DOT

\$649.99 USD | \$919.95 CAD | €700.00 EUR

Built on the F5 chassis and adding to its engineered capability to provide all-day comfort, the F5 Koroyd adds safety and ventilation technologies to provide protection, reduced weight and enhanced ventilation and carries the DOT certification for on-road use. Challenging long-held industry methods, the F5 is leading the way in head protection technology and providing the best possible riding experience.

Koroyd® is a next generation energy absorbing technology, engineered with a unique structure and innovative energy management properties. When impacted the Koroyd cores crush homogeneously, decelerating the energy from the impact.

MIPS® brain protection system is a low-friction layer designed to reduce rotational motion from angled impacts the head.

F3 HELMET ECE ONLY

REGULAR - \$279.99 USD | \$379.95 CAD | €300.00 EUR

Maximize the Minimum – The F3 is engineered to minimize neck fatigue and maximize impact protection.

Built Strong – KLIM's all-new F3 starts a light and strong revolution in off-road style helmets. Constructed with KLIM's Structure Mapped Composite base material lay up, the F3 optimizes strength in all the right areas while reducing overall weight. The composite construction eliminates inconsistencies in hardness, resin distribution and weight.

Refined Fit – New FID-LOCK quick-release closure simplifies entry, even with gloves on. With the F3, riders enjoy up to 10% smaller external dimensions and a sleeker, more comfortable fit from three shell sizes.

Let Off Some Steam – KLIM is the industry leader in body comfort. And developing an effective intelligent ventilation system for the F3 was key. Thirteen intake vents combine with six exhaust ports to provide optimal heat dispersion even while stationary.

Wide Open Spaces – The KLIM F3 Helmet features the widest, unobstructed field of view in its class, ensuring you'll never miss the epic views it takes you to.

All-Day Comfort – The KLIM F3 features the latest Custom EPS and internal liner systems to secure the rider's head completely. EPS, 3D Ergonomic cheek pads and liner foam are optimized for a great fit.

Systems Check – KLIM engineered the new F3 to work in conjunction with market leading neck brace technology, not against it.

Expectations – Thanks to innovative construction techniques and premium materials, The KLIM F3 meets or exceeds the most demanding ECE and DOT standards for motorcycle helmets at reduced weight

KLIM Custom Fit – Klimatek™ Fabric liner systems utilize adaptive smart foam technology and anti-microbial/bacterial fast-wicking textiles.

MOUNTAIN

AGGRESSIVE FREEDOM

In remote, rugged, backcountry terrain there's only one way to dominate the snow. Premium comfort and durability ensure demanding conditions become epic experiences. Engineered for adaptability and resilience through waterproofness, breathability and layering to create the ultimate snowmobile experience. This is Mountain.

REDESIGNED LOCHSA ONE-PIECE

\$899.99 USD | \$1,239.95 CAD | €1,000.00 EUR

The redesigned Lochsa is engineered to be the most durable, breathable and ventilated one-piece on the snow. Using rider feedback and test results, we've refined the proven chassis for better avy readiness, venting and comfort. Lochsa lets the most aggressive riders push harder with less fatigue, bash through trees with more confidence and stay more avalanche-ready than ever before.

SNOWBIKE

NO BOUNDARIES

Carving new lines through tight trees and into aggressive terrain demands agility and durability. Snowbikers know there's nothing like crossing untouched terrain. This is purpose-built gear engineered for aggressive riding. This is Snowbike.

NEW SCOUT ONE-PIECE

\$799.99 USD | \$1,099.95 CAD | €900.00 EUR

3XL - \$829.99 USD | \$1,139.95 CAD | €930.00 EUR

Inspired by the industry-first Havoc Snowbike Bib, the Scout One-Piece combines our legendary one-piece construction with innovative snowbike technologies proven by the most aggressive riders on the snow. Footpegs, headers and aggressive seats are all part of the extreme conditions facing backcountry snowbike riders, requiring unique approaches to design. Durable materials mapped in key areas and key material layouts that reduce bulk give you the most intuitive snowbike experience possible.

HAVOC GTX BOA BOOT

\$399.99 USD | \$549.95 CAD | €450.00 EUR

We built the world's first snowbike-specific boot, the Havoc GTX® BOA®, specifically for the extreme conditions of backcountry snowbiking. We integrated the legendary MICHELIN® sole which provides unprecedented sole durability and grip. Born from years of research and experience manufacturing the most popular snowmobile boots in the industry, the Havoc blends all the best features of a snowmobile boot and an off road boot into one high performance, snowbike-specific package. The Havoc is also a perfect crossover boot for the most destructive snowmobilers.

CROSSOVER

ENGINEERED VERSATILITY.

Between blasting trails and carving backcountry powder, crossover riding demands versatile, durable equipment. There's little these sleds won't handle. Crossover gear is designed the same way, engineered to adapt to your riding style and conditions.

This is Crossover.

NEW RAILSLIDE ONE-PIECE

TRAIL

WIDE OPEN.

Trails and frozen lakes put riders through some of the most vicious winter elements. It's in these harsh conditions that you need gear engineered for performance without compromise. When style, all-day comfort and full-season durability are important, this is the ticket. This is Trail.

RIFT JACKET

REGULAR - \$399.99 USD | \$549.95 CAD | €450.00 EUR

3XL - \$429.99 USD | \$589.95 CAD | €480.00 EUR

In pursuit of enhanced winter safety, we've engineered the Rift Jacket to offer floatation assistance, protection and comfort in the extreme conditions trail riders face. This is the first float assist GORE-TEX jacket in the world and it doesn't need to be used with floatation bibs to work properly. Ascent Float Technology (AFT) is a flexible, breathable closed cell foam that we integrated in specially mapped channels that offer floatation benefits without compromising mobility and comfort. AFT foam doesn't absorb water and provides significant insulating properties for warmth on top of the standard insulation. The Rift Jacket is a comprehensive trail snowmobile jacket for riders looking to maximize every winter riding experience.

NEW MAVERICK DOWN JACKET

\$229.99 USD | \$329.95 CAD | €250.00 EUR

3XL - \$259.99 USD | \$369.95 CAD | €280.00 EUR

The Maverick Down Jacket is lightweight and highly wind resistant, adding essential warmth to any situation. It's packable for travel, versatile for use as a stand-alone jacket or under an outer shell, and features subdued sensibilities that make it perfectly suited as a motorcycle layer. In order to reduce down loss, the Maverick uses engineered seamless baffles without stitch holes to keep down in place. An added benefit of this construction technique is reduced snagging – this is important for motorcycle use. The Maverick is your go-to jacket for everything from mountain passes to the office.

- 800-FILL-POWER DOWN
- 90/10 GRAY GOOSE DOWN
- ENGINEERED SEAMLESS DOWN BAFFLES (REDUCES DOWN LOSS, NO STITCHING TO SNAG ON VELCRO)
- HIGHLY WIND RESISTANT 20D NYLON FABRIC

NEW COLORWAY OVERRIDE JACKET

\$189.99 USD | \$259.95 CAD | €200.00 EUR

The Insulated Override Jacket is a mid layer with exceptional breathability, which avoids causing a stuffy sweaty feeling without introducing so much airflow that body heat escapes. The result is a highly breathable mid layer suited for high-output physical activity and adds warmth to any outer shell. In fact, we had to stop employees from taking home all of our pre-production testing jackets – they're that good.

- HIGH PERFORMANCE BREATHABLE MID LAYER
- 20D RIPSTOP NYLON SHELL FABRIC IS LIGHTWEIGHT, BREATHABLE
- 60G 3M™ THINSULATE™ INSULATION
- DWR TREATMENT FOR SHEDDING WATER DROPS
- IDEAL FOR LAYERING UNDER GORE-TEX SHELL

NEW COLORWAY OVERRIDE ALLOY JACKET

\$149.99 USD | \$199.95 CAD | €170.00 EUR

If mullets were serious business, this would be the mullet version of the Override Jacket. The Override Alloy Jacket uses the high performance chassis and insulation from the Override, but replaces the back and underarm panels with highly breathable, moisture wicking fleece. This is the ultimate mountain mid layer solution, taking the chill away from your front without adding unnecessary bulk to the back – all with massive breathability and moisture wicking effects to keep you comfortable. Business in the front, party in the back.

- HIGH PERFORMANCE HYBRID BREATHABLE MID LAYER
- 20D RIPSTOP NYLON SHELL FABRIC IS LIGHTWEIGHT, BREATHABLE
- 60G 3M™ THINSULATE™ INSULATION
- GRID FLEECE BACK AND UNDER ARMS FOR EXTREME BREATHABILITY, LOW BULK

VERRIDE ALLOY PANT

\$149.99 USD | \$199.95 CAD | €170.00 EUR

The Override Alloy Pant is the comfortable, highly functional mid layer pant that'll make you wonder, "why didn't I get one sooner?" The top half is highly breathable stretch fabric and lightweight synthetic insulation for warmth, while the lower legs are grid fleece for low bulk and easy layering inside boots and a GORE-TEX shell. This hybrid design is ideal for heavy physical activity, and the casual jogger aesthetic means you won't worry about being seen outside the gas station.

- HIGH PERFORMANCE HYBRID BREATHABLE MID LAYER PANT
- 20D RIPSTOP NYLON SHELL FABRIC IS LIGHTWEIGHT, BREATHABLE

HAVOC GTX BOA BOOT

\$399.99 USD | \$549.95 CAD | €450.00 EUR

We built the world's first snowbike-specific boot, the Havoc GTX® BOA®, specifically for the extreme conditions of backcountry snowbiking. We integrated the legendary MICHELIN® sole which provides unprecedented sole durability and grip. Born from years of research and experience manufacturing the most popular snowmobile boots in the industry, the Havoc blends all the best features of a snowmobile boot and an off road boot into one high performance, snowbike-specific package. The Havoc is also a perfect crossover boot for the most destructive snowmobilers.

NEW POWERXROSS HTD GLOVE

\$229.99 USD | \$319.95 CAD | €260.00 EUR

We took our most popular mountain riding glove, the PowerXross, and added our intuitive 3-level heating system to make the most versatile mountain glove possible – the PowerXross HTD Glove. Further, we streamlined the gloves for even better dexterity and lower bulk in the fingers. The heating filaments are durable and long lasting, powered by lithium-ion batteries to ensure consistent warmth. The heating element covers your backhand and wraps the fingertips, providing full hand heat when used with heated grips on a snowmobile. Gone are the days of wearing heavy gloves on the trail ride in, switching to lighter gloves for the backcountry, and switching back to heavier warmer gloves later on.

RESISTOR HTD GAUNTLET GLOVE

\$249.99 USD | \$339.95 CAD | €280.00 EUR

Take your cold weather adventures to new "lows" with the Resistor HTD Gauntlet Glove and its intuitive 3-level heating system. The heating filaments are durable while long lasting lithium-ion batteries ensure consistent heating for your hands and fingers. The high heat mode runs for 10 minutes and automatically switches to medium heat to preserve batteries and avoid overheating your hands. The heating element covers your backhand and fingertips, providing full hand heat when used with heated grips on a snowmobile.

\$999.99 USD | \$1,369.95 CAD | €1,120.00 EUR

We took industry-leading avalanche airbag technology from Alpride® and built it into a compact, snowmobile-specific backpack for mountain riders. The Aspect pack is designed around a multi-use electronic airbag system. Robust materials and construction with an ergonomic harness prepare this pack for heavy powersports usage. Airbags help you float on top of a moving avalanche, reducing the risk of burial. Ride thrilling backcountry terrain with more peace of mind and quick access to your equipment.

NEW PIEPS POWDER BT

\$339.99 USD | \$469.95 CAD | €380.00 EUR

With a smart transmitter that auto-adjusts the sending antenna to give searching beacons the best signal, a huge 60-meter circular range, and "mark function" for multiple burial scenarios, the PIEPS Powder BT Avalanche Beacon has all the cutting-edge features backcountry riders need.

Designed for backcountry snowmobilers who regularly venture into serious terrain, the PIEPS Powder BT Avalanche Beacon is packed with features. In addition to its massive 60-meter circular range and 60-meter search strip, the Powder BT features an innovative smart transmitter that recognizes other buried devices and auto-adjusts its signal to aid in more accurate recovery. Throw in a self-check function for always-accurate antennas and Digital Signal Processing to account for wayward beacon signals, and the Powder BT is as reliable as it is capable. The included harness-style carrying pouch provides comfortable, streamlined storage and fast removal for beacon practice and emergency response.

- EXTENSIVE SELF-CHECK
- PERFECTLY READABLE DISPLAY
- PERFECT MARK-PERFORMANCE
- PIEPS INTERFERENCE PROTECTION
- IPROBE SUPPORT

BACKCOUNTRY SHOVEL

\$79.99 USD | \$99.95 CAD | €90.00 EUR

The Backcountry Shovel is engineered for fast deployment with robust construction to perform in emergency avalanche situations. In a chaotic environment where seconds matter, intuitive features allow for quick, self-locking deployment so you don't have to fuss with small buttons. The aggressive blade is designed to efficiently cut into snow and easily switches between digging (shovel) position and chopping (hoe) position. A more compact size also allows the Backcountry Shovel to fit in a wider range of avalanche backpacks.

- FAST, DURABLE AVALANCHE SHOVEL WITH INTEGRATED CHOP/HOE MODE
- QUICK-DEPLOY SELF-LOCKING SYSTEM FOR SPEED UNDER STRESS
- FLARED BUTTON ENTRY AND BALL DETENTS FOR QUICK HANDS-FREE DEPLOYMENT (SIMPLY PULL TO EXTEND SHOVEL)
- EGG-PROFILED SHAFT FOR GRIP AND CONTROL, AVOIDS SPINNING IN HAND
- CONVERTS FROM SHOVEL TO CHOPPING MODE (HOE MODE)
- DEADMAN ANCHOR HOLES TO MAKE SNOW ANCHOR
- 6061-T6 ALUMINUM SHAFT AND BLADE FOR LIGHTWEIGHT DURABILITY
